

GRAPHIC NEWS

## GETTING STARTED

### WHAT'S NEW?

**It is very important that editors interested in using graphics know what new graphics are available or in preparation.**

- **E-alerts** can be sent direct to your mailbox.
- A "**web**" **app** can give a quick link to GN on your mobile phone - particularly useful for digital editors interested in responsive graphics. Go to the home page, or another page of interest, and bookmark, directing the "app" to your mobile's home screen.
- **Social media sites** Follow us on Twitter @gngraphicnews, LinkedIn, Facebook.
- **RSS and Content Management System feeds (FTP)** are also available.

**USING THE SERVICE - <http://www.graphicnews.com>**

**The Graphic News home page shows topical stories of world interest, both News (at the top, including business, science technology, entertainment, motoring) and Sport (below, including motorsport).**

**Infographics** - To see a graphic and read the associated story click on the preview image. The icons on the preview image indicate the formats available - printable (static enlarge icon), responsive screen graphic (dual screen icon) or responsive interactive (pointing finger).

**Downloading graphics / embed code** - Publishers may download graphics in editable formats or obtain embed code, a small piece of code that can be pasted onto a web page to publish a graphic.

**The archive** - This gives a unique historic record of world news and events since 1991, when the Graphic News service started.

-- **Keyword search** (enlarge icon on the top bar) using English keywords, graphic number (GN12345 or 12345) or date (e.g. 2006 or Jan). Click on More to select editorial categories in the advanced search. Results can be shown as a list or image grid, and your preferences remembered.

-- **Languages** - Graphics in particular languages can be selected via the appropriate flag or go to <http://www.graphicnews.com/arabic>, /deu, /esp, /ned, /por.

-- **Index** to website sections and categories (icon on the top bar)

**GN Newsahead** is a forward calendar for events of world interest produced by Graphic News in partnership with Jennifer Anderson Land, Editor-in-Chief, Newsahead. It is used by Graphic News for their own forward planning and for the World Agenda / News Ahead series of graphics. It is made available online at <http://www.graphicnews.com/newsahead>, together with the Graphic News **anniversaries database** <http://www.graphicnews.com/onthisday>.

### TERMS

**Please remember that an appropriate credit must always be appended when a graphic is published and that, although subscribing publishers have unlimited access, graphics must not be downloaded and archived for use at a later date.**

**...WANT TO KNOW MORE?** Information is available online **about the website, the service and terms:** <http://www.graphicnews.com/websiteinfo>, /serviceinfo, /terms
